WATER & SEWER
OUR WORKFORCE
DELIVERS FOR YOU!

OUR WORKFORCE DELIVERS FOR YOU!

Our team delivers quality services year-round to over 46,000 customers.
Here's a look at some of our professionals and what they do.

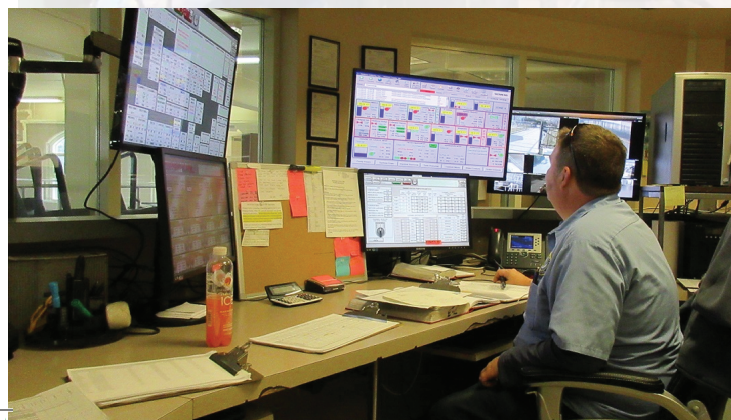

Laboratory Chemists & Technicians

perform 229,000 tests annually on water and wastewater. They ensure your water meets rigorous health requirements, and that no effluent is released unless it is within regulated limits and safe for the environment.

Engineers

with over 300 years of combined experience, design and manage capital projects that improve service and technology and reduce costs.

Facility or Maintenance Mechanics

maintain six high-tech treatment plants, 60+ booster and pump stations, and conveyance systems that contain hundreds of motors, pumps, valves and complex mechanical and technical equipment.

Plant Operators

monitor and measure water quality processes using highly technical equipment; 100% of our plant operators have one or more certifications or licenses.

Meter Technicians & Mechanics

replace 2,500 meters annually and repair and troubleshoot 43,000 meters in households countywide; 73% are professionally certified.

Utility Workers

are licensed by the state and maintain our sewer collection and water distribution systems. They operate heavy equipment and receive extensive training to safely complete pipe repairs, excavation, confined space entry, trenching and flagging.

Join our team!

We offer great benefits including health care, dental, retirement,

career path incentives, continuing education & more!
